

Trimester 1		
CCSS		Resources/Notes
Mathematical Practices		
	<ol style="list-style-type: none"> 1. Make sense of problems and persevere in solving them. 2. Reason abstractly and quantitatively. 3. Construct viable arguments and critique the reasoning of others. 4. Model with mathematics. 5. Use appropriate tools strategically. 6. Attend to precision. 7. Look for and make use of structure. 8. Look for and express regularity in repeated reasoning. 	
CC: Counting and Cardinality		
	Know number names and the count sequence.	
<u>K.CC.1</u>	1. Count to 100 by ones and by tens.	Count to 29 by ones, count to 100 by tens
<u>K.CC.3-1</u> <u>K.CC.3-2</u>	3. Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20 (with 0 representing a count of no objects).	Write 0-10, reversals (mirror images) of digits are OK
	Count to tell the number of objects.	
<u>K.CC.4a</u>	4. Understand the relationship between numbers and quantities; connect counting to cardinality. <ol style="list-style-type: none"> a. When counting objects, say the number names in the standard order, pairing each object with one and only one number name and each number name with one and only one object. b. Understand that the last number name said tells the number of objects counted. The number of objects is the same regardless of their arrangement or the order in which they were counted. 	
<u>K.CC.4b</u>		
<u>K.CC.5-1</u> <u>K.CC.5-2</u>	5. Count to answer “how many?” questions about as many as 20 things arranged in a line, a rectangular array, or a circle, or as many as 10 things in a scattered configuration; given a number from 1–20, count out that many objects.	0-10

OA: Operations and Algebraic Thinking		
	Understand addition as putting together and adding to, and understand subtraction as taking apart and taking from.	
<u>K.OA.1-1</u>	1. Represent addition and subtraction with objects, fingers, mental images, drawings (Drawings need not show details, but should show the mathematics in the problem. This applies wherever drawings are mentioned in the Standards.), sounds (e.g., claps), acting out situations, verbal explanations, expressions, or equations.	
<u>K.OA.1-2</u>		
<u>K.OA.2-1</u> <u>K.OA.2-2</u>	2. Solve addition and subtraction word problems, and add and subtract within 10, e.g., by using objects or drawings to represent the problem.	
<u>K.OA.3</u>	3. Decompose numbers less than or equal to 10 into pairs in more than one way, e.g., by using objects or drawings, and record each decomposition by a drawing or equation (e.g., $5 = 2 + 3$ and $5 = 4 + 1$).	
<u>K.OA.5</u>	5. Fluently add and subtract within 5.	
MD: Measurement and Data		
	Describe and compare measurable attributes.	
<u>K.MD.1</u>	1. Describe measurable attributes of objects, such as length or weight. Describe several measurable attributes of a single object.	
G: Geometry		
	Identify and describe shapes (squares, circles, triangles, rectangles, hexagons, cubes, cones, cylinders, and spheres).	
<u>K.G.1-1</u> <u>K.G.1-2</u>	1. Describe objects in the environment using names of shapes, and describe the relative positions of these objects using terms such as <i>above</i> , <i>below</i> , <i>beside</i> , <i>in front of</i> , <i>behind</i> , and <i>next to</i> .	
<u>K.G.2</u>		
<u>K.G.3-1</u> <u>K.G.3-2</u>	3. Identify shapes as two-dimensional (lying in a plane, “flat”) or three dimensional (“solid”).	

Trimester 2		
CCSS		Resources/Notes
Mathematical Practices		
	<ol style="list-style-type: none"> 1. Make sense of problems and persevere in solving them. 2. Reason abstractly and quantitatively. 3. Construct viable arguments and critique the reasoning of others. 4. Model with mathematics. 5. Use appropriate tools strategically. 6. Attend to precision. 7. Look for and make use of structure. 8. Look for and express regularity in repeated reasoning. 	
CC: Counting and Cardinality		
	Know number names and the count sequence.	
<u>K.CC.1</u>	1. Count to 100 by ones and by tens.	Count to 59 by ones, to 100 by tens
<u>K.CC.2</u>	2. Count forward beginning from a given number within the known sequence (instead of having to begin at 1).	Within bands of 10, up to 59
<u>K.G.3-1</u> <u>K.G.3-2</u>	3. Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20 (with 0 representing a count of no objects).	Write 0-10, reversals (mirror images) of digits are OK
	Count to tell the number of objects.	
<u>K.CC.4a</u> <u>K.CC.4b</u> <u>K.CC.4c</u>	<ol style="list-style-type: none"> 4. Understand the relationship between numbers and quantities; connect counting to cardinality. <ol style="list-style-type: none"> a. When counting objects, say the number names in the standard order, pairing each object with one and only one number name and each number name with one and only one object. b. Understand that the last number name said tells the number of objects counted. The number of objects is the same regardless of their arrangement or the order in which they were counted. c. Understand that each successive number name refers to a quantity that is one larger. 	0-15
<u>K.CC.5-1</u> <u>K.CC.5-2</u>	5. Count to answer “how many?” questions about as many as 20 things arranged in a line, a rectangular array, or a circle, or as many as 10 things in a scattered configuration; given a number from 1–20, count out that many objects.	0-15

	Compare numbers.	
K.CC.6	6. Identify whether the number of objects in one group is greater than, less than, or equal to the number of objects in another group, e.g., by using matching and counting strategies. (Include groups with up to ten objects.)	
OA: Operations and Algebraic Thinking		
	Understand addition as putting together and adding to, and understand subtraction as taking apart and taking from.	
K.OA.1-1 K.OA.1-2	1. Represent addition and subtraction with objects, fingers, mental images, drawings (Drawings need not show details, but should show the mathematics in the problem. This applies wherever drawings are mentioned in the Standards.), sounds (e.g., claps), acting out situations, verbal explanations, expressions, or equations.	
K.OA.2-1 K.OA.2-2	2. Solve addition and subtraction word problems, and add and subtract within 10, e.g., by using objects or drawings to represent the problem.	
K.OA.3	3. Decompose numbers less than or equal to 10 into pairs in more than one way, e.g., by using objects or drawings, and record each decomposition by a drawing or equation (e.g., $5 = 2 + 3$ and $5 = 4 + 1$).	
K.OA.4	4. For any number from 1 to 9, find the number that makes 10 when added to the given number, e.g., by using objects or drawings, and record the answer with a drawing or equation.	
K.OA.5	5. Fluently add and subtract within 5.	
MD: Measurement and Data		
	Describe and compare measurable attributes.	
K.MD.2	2. Directly compare two objects with a measurable attribute in common, to see which object has “more of”/“less of” the attribute, and describe the difference. <i>For example, directly compare the heights of two children and describe one child as taller/shorter.</i>	
G: Geometry		
	Identify and describe shapes (squares, circles, triangles, rectangles, hexagons, cubes, cones, cylinders, and spheres).	
K.G.2	2. Correctly name shapes regardless of their orientations or overall size.	

K.G.3-1 K.G.3-2	3. Identify shapes as two-dimensional (lying in a plane, “flat”) or three dimensional (“solid”).	
	Analyze, compare, create, and compose shapes.	
K.G.5	5. Model shapes in the world by building shapes from components (e.g., sticks and clay balls) and drawing shapes.	
K.G.6	6. Compose simple shapes to form larger shapes. <i>For example, “Can you join these two triangles with full sides touching to make a rectangle?”</i>	

DRAFT

Trimester 3		
CCSS		Resources/Notes
Mathematical Practices		
	<ol style="list-style-type: none"> 1. Make sense of problems and persevere in solving them. 2. Reason abstractly and quantitatively. 3. Construct viable arguments and critique the reasoning of others. 4. Model with mathematics. 5. Use appropriate tools strategically. 6. Attend to precision. 7. Look for and make use of structure. 8. Look for and express regularity in repeated reasoning. 	
CC: Counting and Cardinality		
	Know number names and the count sequence.	
<u>K.CC.1</u>	1. Count to 100 by ones and by tens.	Count to 100 by ones, to 100 by tens
<u>K.CC.2</u>	2. Count forward beginning from a given number within the known sequence (instead of having to begin at 1).	Within bands of 10, up to 100
<u>K.G.3-1</u> <u>K.G.3-2</u>	3. Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20 (with 0 representing a count of no objects).	Write 0-20, reversals (mirror images) of digits are OK
	Count to tell the number of objects.	
<u>K.CC.5-1</u> <u>K.CC.5-2</u>	5. Count to answer “how many?” questions about as many as 20 things arranged in a line, a rectangular array, or a circle, or as many as 10 things in a scattered configuration; given a number from 1–20, count out that many objects.	0-20
	Compare numbers.	
<u>K.CC.7</u>	7. Compare two numbers between 1 and 10 presented as written numerals.	Greater than, less than, equal to
OA: Operations and Algebraic Thinking		
	Understand addition as putting together and adding to, and understand subtraction as taking apart and taking from.	
<u>K.OA.2-1</u> <u>K.OA.2-2</u>	2. Solve addition and subtraction word problems, and add and subtract within 10, e.g., by using objects or drawings to represent the problem.	
<u>K.OA.3</u>	3. Decompose numbers less than or equal to 10 into pairs in more than one way, e.g., by using objects or drawings, and record each decomposition by a	

	drawing or equation (e.g., $5 = 2 + 3$ and $5 = 4 + 1$).	
K.OA.4	4. For any number from 1 to 9, find the number that makes 10 when added to the given number, e.g., by using objects or drawings, and record the answer with a drawing or equation.	
K.OA.5	5. Fluently add and subtract within 5.	
NBT: Number and Operations in Base Ten		
	Work with numbers 11–19 to gain foundations for place value.	
K.NBT.1	1. Compose and decompose numbers from 11 to 19 into ten ones and some further ones, e.g., by using objects or drawings, and record each composition or decomposition by a drawing or equation (e.g., $18 = 10 + 8$); understand that these numbers are composed of ten ones and one, two, three, four, five, six, seven, eight, or nine ones.	
MD: Measurement and Data		
	Describe and compare measurable attributes.	
	Classify objects and count the number of objects in each category.	
K.MD.3-1 K.MD.3-2	3. Classify objects into given categories; count the numbers of objects in each category and sort the categories by count. (Limit category counts to be less than or equal to 10.)	
G: Geometry		
	Analyze, compare, create, and compose shapes.	
K.G.4-1 K.G.4-2	4. Analyze and compare two- and three-dimensional shapes, in different sizes and orientations, using informal language to describe their similarities, differences, parts (e.g., number of sides and vertices/“corners”) and other attributes (e.g., having sides of equal length).
