## Foreign Language Oral Proficiency in a Language Other Than English (K-12 Students)

There are particular circumstances when the oral proficiency in a foreign language will be waived for a student. If, for example, through the home language survey which all parents are required to complete for their student upon registration to attend Douglas County schools, it is determined that the primary language spoken in the home is a language other than English, the oral proficiency foreign language competency assessment may be waived.

In the case of a Douglas County School District student who attends a foreign exchange student program in a country where the primary language is not English, the oral proficiency foreign language competency assessment may also be waived.
